

Name: Leung Hoi Tung

Class: 6C

My Unforgettable Experience

I had my first unforgettable experience when I went to Singapore. It was a wonderful experience.

On my eleventh birthday, my parents took me to go horse riding. In the day before horse riding, I was so excited. I could not sleep at night. The riding school was so ground when I stepped into it. I saw a lot of students who were learning horse riding. In the first class, the coach taught me how to take care of the horse so that the horses will like me more. Then the coach taught me how to go forward and backward, turn left and turn right. The main point was how to control the horse. It was amazing. It was very fun and I felt so excited. I hope I can go again soon next time.

I felt very proud of myself. I learnt how to ride a horse and bath the horses at last.
